

K fab

K-Fab Fabric Wash is two times better at stain removal than detergent powder. Faster stain removal, without affecting color, texture of fabric. Safe on fabrics and hands. Good results in all types of washing like hand wash, top loading and front loading machines.

- ✦ Oxy bleach with boosters present in our product, will go deeper into the fabric and remove the stains instantly without harming the fabric.
- ✦ Moisturizer present in K-Fab renders softness to the hands during hand wash of the clothes.
- ✦ Neutral pH of K-Fab enables best safety to hands and the clothes. Further, this property makes it more comfortable to wash silk sarees / fabrics
- ✦ K-Fab contains anti-fungal and anti-bacterial agents that helps to destroy the disease causing bacterias in the fabric. Further this anti-fungal and anti-bacterial agents helps in the extended shelf life for the product (i.e) 2 years.
- ✦ Most importantly, the surfactants used in K-Fab are derived from natural plants. Hence it gives high foaming but these foams can be washed away easily with little quantity of water thus helping to minimise the water consumption.
- ✦ Further, because of the surfactants derived from natural plants, the product performs well both in soft & hard water.
- ✦ Besides, as K-Fab is free from phosphate, it makes the product absolutely Eco-Friendly.

Dosage: 1 to 2 cap full, depends upon the load. Add more for heavily soiled clothes
