

# K LIQUID CHLOROPHYLL WITH MINT

The main source of Liquid Chlorophyll for commercial extraction is the Alfalfa Plant which is called as FATHER OF ALL FOODS. K-Liquid Chlorophyll with Mint flavor can function as a free radical neutralizer, may help to support the body's detoxification processes and has been traditionally used as an internal deodorizer.

Chlorophyll, life's natural elixir, is the green pigment of plants. It traps and stores the energy of sunlight for the photosynthesis process. The energy is required to convert water (H<sub>2</sub>O) and carbon dioxide (C<sub>2</sub>O) into glucose (C<sub>6</sub>H<sub>12</sub>O<sub>6</sub>), the chief source of energy for living organisms.
